W. C. G.
RESEARCH BULLETIN

The Waukegan Contact Group is a non-profit research organization which is affiliated with several world-wide organizations actively engaged in the study and investigation of the popularly termed "Flying Saucers" and various other related subjects that have hitherto either been over-looked or ignored. It is dedicated to the awakening of Man in relation to himself and his universe.

The Waukegan Contact Group is also promoting the establishment of contact groups throughout the world. These groups consisting of radio hams, amateur astronomers and interested individuals would contribute greatly to the proper and better understanding of the visitations from outer space that have come into a new plane of existence within the last decade.

The year 1956 is an important year in many ways. The Waukegan Contact Group will explore many of the more important aspects of the new year, for indeed, it is a New Year in more than the popular conception. 1956 will mean much more than merely the addition of another number to our conception of time in years; it will

mean many wonderful and glorious changes in the physical and spiritual phases of our little globe.

Within the last fifty years, man upon this earth has advanced scientifically more than he has within the last two thousand years. This is not a "natural" event and it has a relation to the "Flying Saucers" that are supposedly "new" or a new conception. Actually, these craft have been exploring and studying this planet longer than our present day conception of history records or attempts to record.

The W. C. G. Research Bulletin is not a cold materialistic enumeration on scientific facts. It combines the investigation of universal forces and prevailing conditions with the recognition of a Creator, of a Consciousness prevalent throughout the omniverse. There is no actual difference between science and true Christianity, except on our globe. An example of this is the fact that we human beings are living on a planet, swimming in an endless sea about another sun. There are other planets "close" to our own which set up a solar balance, thus sustaining life for us and for our sister planets as well.

The bulletin will go into a myriad of "New Age" conceptions and ideals which will present a preview of the dawning awareness, the golden utopia which is now on the horizon. The W. C.G. Research Bulletin brings you to the realization that we are in the "New Age". That we are living at the beginning of an event which has never been equalled since the birth of Christ. The fact that we are now in the beginning of the "New Age" presents an explanation as to why there is such friction not only in international affairs but also in natural forces and the general physical and spiritual structure of our globe.

The bulletin will have twelve fields of research, one for each member of the Waukegan Contact Group. There will also be an "Open Topic", a diversion of research made by a member of the group into a subject not covered by the main fields of research. In this "Open Topic" such subjects as cats, color, sound, the human aura, rebellion, and various diverse studies will be thoroughly presented.

The following twelve fields of research will be presented periodically in the W.C.G. Research Bulletin: (1) Communications [with light-beam units, short-wave and other non-mechanical media]. (2) Astrophotography. (3) Radiations [the study of the effect of nuclear experimentation on the human race]. (4) Lost Continents. (5) Underground Civilizations. (6) Mental Control [utilizing some of the hidden powers within]. (7) Celestial Research. (8) Other Dimensions. (9) Truth Concep-

tions [universal truth as compared to religion]. (10) Coming World Changes [a preview of the "New World"]. (11) Future Health Conceptions [physical fitness in the "New World"]. (12) Ancient Civilizations [a new look at the world as it was].

The W. C. G. Research Bulletin will also have a section reserved for sightings of space craft but these will be only important and characteristic reports. Recordings of certain music will be recommended as it is felt that music will play an important part in the dawning "New Age."

The W. C. G. Research Bulletin is not a "saucer" magazine. It is a research bulletin presenting the finding of researches made by the members of the Waukegan Contact Group. It will present many ideals and beliefs which will conflict with steadfast dogmas and orthodoxism, but the bulletin will always give the proof of these findings and the various sources from which this information may be gotten. Our goal is a new world, please help us achieve that goal by your subscription.

The subscription price of the W. C. G. Research Bulletin will be $5.00 for a year's subscription, 50 cents for single copies.

'FLYING SAUCERS' BARED AS PROMOTION STUNT
FOR GENERAL AMALGAMATED'S NEW ENTERPRISE

--

To Our Loyal Stockholders:

Many of you have read in the newspapers or heard on the radio about the fleets of 'Flying Saucers' being seen by emotional people all over the place; and maybe you have wondered just what the gimmick is.

Well, the saucers are all part of a promotion stunt to advertise our new line of chinaware. This line consists of various pieces, all self-propelling, thus saving the busy housewife the chore of carrying them to the table and back to the dishwasher. It leaves her more time to push buttons, throw switches, twist knobs and call the local power company to for hell's sake come out and fix the damn equipment.

The present saucers are launched from our secret factory located in our 'Safe-T-Kaves' in Grizzly Gulch, Utah. At this writing we have also in production flying cups, flying gravy bowls, flying meat plates and flying sugar bowls. On the drawing boards is a flying soup tureen, measuring two feet from stem to stern and holding nine gallons of hot soup.

When this flying tureen really gets going over Boston, spraying Philadelphia Pepperpot all over the town, God knows what the result will be. To keep things fair, the tureen will later fly over Philadelphia spraying that city with Boston clam chowder. Quite a bit of radio and newspaper comment is expected, especially if somebody puts tomatoes in the chowder.

Following this display, we will market a full line of flying tableware, from butter chips to platters capable of taking a 20-pound turkey. All the housewife will have to do is load the plates, etc., in the kitchen, push a switch, and the various items will take off, hover for a few seconds - scaring the hell out of uninitiated guests, - and then settle down on the table. At the end of the meal another switch will whisk the saucers, plates, tureens, bowls, plates and so forth direct to the washing machine.

We are reserving a few presentation sets of Flying Tableware for our valued stockholders, who are urged to spread news of Flying Saucers far and wide. Telephone your newspaper or radio station you've just seen a flock of saucers low down in the west, or somewhere. Keep the mystery going!

Respectfully submitted:

DO FLYING SAUCERS REALLY EXIST?

For a new and controversial study of UFO's, read

THE WORLD OF FLYING SAUCERS

A SCIENTIFIC EXAMINATION OF A MAJOR MYTH OF THE SPACE AGE

by DONALD H. MENZEL and LYLE G. BOYD

This book, just published by Doubleday, is a full examination of the flying saucer craze. According to its authors, Dr. Menzel and Mrs. Boyd, there is absolutely no evidence that any ships from outer space have visited the earth. . . as yet.

The authors take up, one by one, over 130 flying saucer sightings that have been reported in the last fifteen years. Using detailed evidence from all branches of science, from astronomy to psychology, they discuss the various types of mysterious objects in terms of normal physical phenomena—planets, meteors, aircraft, balloons, clouds, birds, mirages, radar ghosts—or in terms of human aberration—delusion, fraud, and in a few cases, outrageous hoax.

Dr. Menzel, author of the well-known book, Flying Saucers and Mrs. Boyd, co-author of several science fiction stories and scientific papers, expertly explain many spectacularly mysterious and controversial sightings and offer probable solutions to several famous puzzles whose causes were not fully understood. The authors have been given unrestricted access to the U.S. Air Force files on unidentified flying objects.

THE WORLD OF FLYING SAUCERS promises to be the most controversial book on UFO's since the first flying saucer was sighted in 1947. You may not agree with many of the authors' arguments and conclusions but this is a book you cannot afford to miss.

FOR IMMEDIATE RELEASE

NEW BOOK BY JOHN G. FULLER TELLS THE STRANGEST STORY OF OUR TIME--
"THE INTERRUPTED JOURNEY: TWO LOST HOURS 'ABOARD A FLYING SAUCER'"
With an Introduction by Benjamin Simon, M.D. (October 29th; $5.95)

Driving home from Canada on the night of September 19, 1961, Betty and Barney Hill of Portsmouth, N.H. "sighted" a flying saucer. The experience left them shaken. When they arrived in Portsmouth, Barney found peculiar scuff marks on the tips of his shoes; Betty noted rows of bright and shiny circles on the trunk of their car. What was worse, they realized they had reached home much later than they should have--they could not account for almost two hours of their time on the road.

After many months of psychic distress dating from this night, the Hills sought medical assistance from a distinguished Boston psychiatrist and neurologist, Dr. Benjamin Simon. Under psychotherapy, including time-regression hypnosis, the Hills gave almost identical accounts of what had happened during the lost two hours of their journey--a period of time their conscious minds had repressed. They told of an encounter with intelligent humanoid beings who took them aboard an alien spacecraft, questioned them, and submitted them to physical examination. After seven months of treatment, Dr. Simon decided that neither of his patients was psychotic, and that both consciously and under hypnosis they told what they believed to be the absolute truth.

Here is the complete account, from beginning to end, of the story of Betty and Barney Hill--portions of which were serialized recently in Look Magazine. It includes the actual transcription of the tapes made of their testimony under

hypnosis, as well as the sketches they drew, both in and out of trance, of the spacecraft and the humanoid creatures. Neither Dr. Simon, nor Betty nor Barney Hill will state that their experience cannot be challenged; on the other hand, Dr. Simon has not offered an incontrovertible assessment to discredit the Hill's testimony. Whether THE INTERRUPTED JOURNEY is fact or fantasy or something in between, it is unquestionably one of the most fascinating books of the decade.

John G. Fuller, who researched and wrote Barney and Betty Hill's story, is the author of the best seller INCIDENT AT EXETER, a study of UFO sightings in New Hampshire. His previous non-fiction includes GENTLEMEN CONSPIRATORS and THE MONEY CHANGERS. From 1957 to 1966 he wrote the well-known "Trade Winds" column for the Saturday Review.

Dr. Simon is a well-known Boston psychiatrist and neurologist. In addition to his private practice, he is Assistant Clinical Professor of Psychiatry at Tufts School of Medicine. He has also been Assistant Clinical Professor of Psychiatry and Mental Hygiene at Yale University. Dr. Simon first became interested in hypnosis as an undergraduate at Johns Hopkins University. During his psychiatric and neurological training at Stanford University and Washington University School of Medicine, he developed proficiency in techniques and procedures in hypnosis. In World War II, as Chief of Neuropsychiatry and Executive Officer at Mason General Hospital, the Army's Chief Psychiatric Center, Dr. Simon used hypnosis on an extensive scale in treating military psychiatric disorders. He is the author of numerous books and articles. More biographical material which you may find helpful is attached.

Dear Friend:

The circulars accompanying this letter were printed on our new press. Very soon, when we have completed setting up our new print shop in the old Grade School building in Amherst (which we purchased when the new school was completed recently), we will be printing SEARCH and FLYING SAUCERS and THE HIDDEN WORLD also. This means we'll no longer have those annoying delays and missed issues because our printer let us down. We will have a much better printing job, and a better magazine in an editorial respect, too, because your editor will have available, in his old chicken house (now handsomely remodeled) the facilities of a new copying camera, printing plate maker, and electronic reproducing typewriters to give you many things hitherto impossible either because of mechanical limitations or cost.

For all of this equipment we've spent $35,000.00! It would have been impossible without the help of you readers of our magazines and buyers of our books. Our recent mail offer to you actually paid for the bulk of our equipment so that the monthly payments on the balance are well within our capabilities.

Now we want to show our appreciation and at the same time make sure we don't cause any of you who may be interested to miss out on our two newest ventures--the publication of The Shaver Mystery in our new 192-page paper-cover book series THE HIDDEN WORLD and the photo-reproduced copy of the original unchanged and unexpurgated OAHSPE as it was first published in 1882. THE HIDDEN WORLD is now printing, and the Spring 1961 issue will be available in February. The reason we bring it to your attention once more is because we are printing only enough to take care of those who order the book. It would be a shame to find out we hadn't printed enough; so we're asking you now to subscribe immediately if you intend to do so at all so that we can determine how many we will print. We need to know this by return mail. If you cannot subscribe today, write us and reserve a copy! Then you will have three months to send in your subscription and you won't miss the first book. I've included a circular with descriptive matter and a coupon for your use. Regarding OAHSPE, we only printed 2000 copies, so we are suggesting that you bear that in mind: if your intention is to buy one, please order now! At least write us and ask us to reserve a copy, and will also hold that for you for three months. Everyone who has received a copy has been enthusiastic. Many have said they marvel at how we could possibly have produced such a magnificent job, being well worth the price. Actually, we couldn't afford it, as it really cost more than the selling price. The truth is, the publication of the 1882 edition was a personal matter with us. We'll let the future decide whether it was worthwhile. In the interests of making unexplained editing and changes clear to the public, we let our case rest. If there is anything we hate, it is being denied all the facts. And with the publication of this original OAHSPE volume, you have been given all the facts possible for this editor to collect. There are still things to be published, in the possession of others, and we hope to persuade these others to make them available. Unfortunately, it seems that whole portions of the original manuscript were never published, and have since been destroyed by irresponsible persons.

Our further reason for contacting you again is because we have on hand quite a few copies of the flying saucer books we've published, namely

(see reverse side, please)

THE SECRET OF THE SAUCERS by Orfeo Angelucci; OTHER TONGUES-OTHER FLESH by George Hunt Williamson; FLYING SAUCER PILGRIMAGE by Bryant & Helen Reeve; and our sensational medical book (which is soon to be followed by a magnificent new documentary volume which will really "lay it on the line"), A DOCTOR IS BORN by Dr. W. D. Chesney, M. D. We've got more of these four books on hand than we can afford, frankly, and they've tied up money we could use in our new printing plant, buying paper, ink, paying salaries, etc. Thus, we'd like to sell some of them. Therefore, we are offering them at a greatly reduced price, even below our profit margin, so that we can turn some of them into needed cash. We're reducing each book's cost by $1.00. Thus, if you missed these books, you can now save a dollar on each of them!

Selling some of these books would give us the needed capital to produce the documentary sequel to Dr. Chesney's book (which will be titled CONFIDENTIAL MEDICAL CATECHISM) and three new books which we consider the most sensational we've ever published. We'll give you a hint...

Remember how we've been advertising for more than ten years in an effort to find missing L. Taylor Hansen, noted archaeologist and anthropologist who back in 1948 informed us he was going to descend into a mysterious smooth shaft in the Panamints which he claimed was man-made and possibly led to Shaver's caves? Well, we've found him at last! And although he refuses to tell us where he was all these years (he suggests we let the subject drop for the good of all concerned), he has given us three sensational books to publish. One is secret information from North and South American Indian Tribes which should astound the world; another is about Atlantis; a third about Lemuria. They are important additions to our research through the years in the fields covered by SEARCH and FLYING SAUCERS and THE SHAVER MYSTERY. They will answer many of the puzzling questions our searching has brought up. None of you who have followed our activities through the years will want to miss these books--that we can say most positively! We are now ready to publish them with no holds barred because we can no longer be dictated to by a printer, or coerced by any agency interested in silencing us (like the way we were almost ruined by "somebody" stepping in and depriving us of our paper supplier in January of 1960 when we first began our amazing publication of the mysteries of the Arctic and Antarctic.

During the past few months it has almost seemed to us that some "hidden" power has been operating to help us achieve what we believed to be impossible. The very idea of setting up our own printing plant was preposterous! Where would we get so much money? And even if we did get presses, etc., where would we get a printer with experience? Just when we needed one, young Dave Helbach, born and raised in Amherst, returned from the army and we hired him on the spot. We had only our chicken house to install our presses; but then the large and solidly built Amherst Grade School became available, and a group of Amherst businessmen made it possible for us to buy it! Our typesetting problem was solved when wife Marjorie subscribed to a magazine neither of us wanted, only to find in the first issue to arrive an ad for electronic typewriters which were the answer to our dilemma. We might never have known of their existence without this strange coincidence.

Well, you take it from there. Something miraculous (we think) has happened to us, and we promise you it'll be very much to your liking. Now we can pass on all the wonderful things we have to tell you!

THE HIDDEN WORLD

A NEW IDEA IN BOOK PUBLISHING
THE SUBSCRIPTION BOOK

Here it is at last! The entire Shaver Mystery in book form! The greatest single obstacle to publication has been cost — the average book costs $4.00. And the Shaver Mystery, in its entirety, will take a whole series of books, perhaps as many as ten. Now we've solved our problem — we can give you these books, 192 pages (large size), fine quality book paper for permanence, excellent printing, in heavy enamel paper bindings, at a saving of $2.50 per book! The difference is in the binding, plus regular quarterly publication. We will publish one book every three months, and sell them by subscription only, one year for $6.00. Each book will contain 115,000 words, twice the average book! In addition to the Shaver Mystery, we have other mysterious and thought-provoking books to publish, and that is why these new books will have an over-all title of THE HIDDEN WORLD. Now, via the Subscription Book, the researches of thirty years can be published. You've wanted to know what I REALLY know and think! Here's your chance at last, at a price you can afford.

THE SHAVER MYSTERY--15 YEARS IN THE MAKING

The Whole Truth At Last — And Nothing But The Truth!

It all began in September, 1943, when Richard S. Shaver sent his "ancient alphabet" (Mantong) to *Amazing Stories.* No one could have foretold, when it was published in the December issue, what a sensational reaction there would be, and to what it would lead. Nobody could have said it would disturb millions of people the world over, and make a permanent mark in Man's thinking. Even the great Albert Einstein was to be challenged (and successfully as events have proved!) to say nothing of the sciences of physics, astronomy, and the philosophical sciences of metaphysics and mysticism. Now, after 15 years, the Shaver Mystery stands in a unique position, a pivotal point in modern philosophy, possibly the answer to most of the enigmas of all time. The Alphabet alone, as a mental tool, is an astounding thing.

The next item received from Mr. Shaver was a manuscript of 10,000 words entitled "A Warning To Future Man", which was *not* offered in hopes of remuneration, but as gospel truth. As editor, Ray Palmer was impressed, but backed away from a straight presentation. It was decided to call Shaver's "source" of this information "racial memory". But Shaver had said it came from "thought records" from a strange and forbidding "cavern world" beneath the surface of the Earth, "played back" for him by means of "telaug" (telepathy, highly augmented so as to become audio-visual).

Shaver's manuscript was expanded (with dramatic dialogue, etc, for *Amazing Stories* was, after all, a fiction magazine), but with no other distortion of the original manuscript. It was printed in March, 1945, and instantly increased the magazine's circulation by 50,000 copies, and in a few months brought in a total of over 50,000 letters, *thousands of which said what Shaver was saying was NOT fiction, but ABSOLUTELY TRUE because the same things had happened and were happening to them!*

For four years Shaver's "thought record" stories were published. For four years the circulation stayed up 50,000, and dropped back by precisely that amount when publication of Shaver was halted. During those four years a secret file was being kept by editor Ray Palmer. Every letter of importance, every bit of evidence, every theory of explanation, every corroboration, every ramification was consigned to these files. It was, one day, to be published in its entirety because here, beyond all doubt, was a sensational subject almost past understanding unless available in

(Concluded on other side)

complete form. Many who came in late could not hope to be "filled in" on the background. Back issues of *Amazing Stories* were being sold back and forth among "collectors" for as much as $25.00! Most important issues were impossible to obtain anywhere.

The Shaver Mystery became an *adventure*, more exciting than any historical event, or any fictional exploit. Nor was it without danger, for several times even Death menaced with its ugly face. Ray Palmer went to visit Shaver, actually heard the telaug voices himself. Accidents happened, one resulting in paralysis from the waist down — but were they accidents? Confessed victims of "dero persecution" committed suicide. Were they really madmen, or were there really dero? For instance, there was the man who was to come to inspect the secret file; he would tell if it was actually proof or not. A trick was played on him. He was shown the file of "fan mail" (several thousand letters), with four letters from the secret file Palmer considered real proof mixed in. The visitor spent two days reading the letters, then denounced the file as worthless. When he had gone, the four important letters had gone with him! He stole only legitimate evidence!

There were other visitors: A man who announced he was on his way to kill Ray Palmer. A woman who was a "student" of a Tibetan "priest" who taught her from 10,000 miles away via mental telepathy. A taxi driver who had received a cure-all for disease from the planet Uranus, which he manufactured in the form of a plastic dumbbell. A woman from Mexico who had been cured of the drug habit in the caves under Mexico city. A world-renowned spy who pointed out an entrance to the Caves in Brazil. An artist who was sensitive to a mental radio which drove her to commit sabotage, such as setting fires. The man who phoned from Texas said for $250 he would descend into a cave and produce actual pictures of the weird machines Shaver claimed were to be found underground — and who had previously written from Burma, where he was in the Air Force, about being burned through the bicep by a dero's ray gun in a Burma cavern.

Then came the flying saucers, *as Shaver had described them in his stories.* A stunning development . . . made catastrophic with the famed Maury Island incident in which two men lost their lives, and three others died immediately afterward under mysterious circumstances. The Air Force said the Maury Island affair was a Palmer hoax. But Palmer *knew* it was not! Who would know better?

Two FBI men visited Shaver, after two days told him flatly: "at least 25% of what you say is true!" FBI men repeatedly investigated Ray Palmer; Air Force intelligence men, Army Intelligence men, unclassified "intelligence" men whose phone numbers were available by calling upon the Marine Intelligence Headquarters.

What is the Shaver Mystery? There are many theories: There are those who support Shaver in his materialistic honeycomb of caverns the world over, heritage of a Titan-Atlan race which fled a poisoned world over 12,000 years ago. There are those who call his caverns the "astral", his dero the spirits of the dead. Some say it is "another dimension", another realm of life alongside ours, invisible under ordinary circumstances. They fight among themselves, but in one way they join solidly together — the Shaver phenomena are REAL, no matter how opinion of their nature varies! Here is a mystery that stretches from the madhouse to the White House; from the moronic to the world's greatest minds; from superstition to scientific knowledge; from the forgotten past to the present instant! It is imperative that you know the truth about it. Here is your chance, at last!

Other Tongues -- Other Flesh

George Hunt Williamson

In more recent times, there has been a growing realization that on other worlds than ours, even in other universes, there are other living beings. The idea that earth-bound man may someday journey into the heavens to discover other men and women, like or unlike himself, grows by leaps and bounds. Within man's soul lies the truth — mortals exist on other spheres!

Here is a book that brings home this tremendous fact with a dynamic force and sweep that will astound the reader, and convince him beyond all doubt. Here is a HISTORY, a collection of PROOF, and a tremendous THEORY.

While man in his heart knows that other worlds are also inhabited, he is reluctant to admit that Earth is only one small house of the "many mansions" in the Father's house. But the truth stares him in the face, and now, having arrived at a place in his civilization where only Truth will be able to survive, it has become necessary to reaffirm and establish three truths, namely: (1) Science and religion are one and the same thing; (2) The entire universe is magnetic in nature, and even culture is influenced by the laws of magnetism; (3) Space visitors, mentioned in the Bible and ancient mythology, have been coming to Earth throughout the ages, and are now making themselves known to aid mankind in entering a New Age.

In this book, many references and quotations are given from the latest authentic reports on Saucer phenomena. Because many believe there are contradictions in some of the reported happenings, it has been necessary to show that there is a great story and purpose behind all these experiences.

Here, in this book, is the history of OTHER TONGUES, and of OTHER FLESH; calm, scientific evidence that there are brothers of ours in the skies overhead.

We are not alone in the Universe!

"The absolute tops in over 100 books on the subject of flying saucers! Undoubtedly the most all-embracing on every aspect of the subject that has yet appeared!" *The Hon. Brinsley le Poer Trench, editor of the bi-monthly Journal of Space, FLYING SAUCER REVIEW.*

"FLYING SAUCER PILGRIMAGE"

By Bryant & Helen Reeve

They went on a 23,000-mile pilgrimage to meet the people who claimed to have seen flying saucers, even ridden on them! They wanted to know these people for themselves, so they could judge their stories! Here, now, is their factual account of that pilgrimage. Meet them all for yourself: Adamski, Fry, Bethurum, Williamson, Angelucci, Van Tassel, Desmond Leslie, many others. And then they saw a saucer themselves! Read their exciting conclusions, their singular message to you!

Further comments:

"The authors have written the account of adventures and experiences in a most readable and delightful light-hearted manner, however do not be deceived by their gay and happy style. Oh, yes, they want you to enjoy their pilgrimage with them, and you will, too. But this book certainly goes "deep" and explores saucers, the space people and their **raison d'etre**, from every possible angle."

"Are contactees chosen in advance by the space people? Why don't they land? How do we look to the space people? What are they like? What can we learn from space beings? Is this civilization ending? Why are the space people coming to earth in such great numbers at the present time? Are the space beings hostile or friendly? These are just a few of many questions discussed in this book."

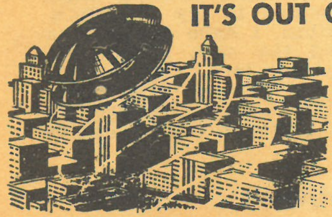

"No one seriously interested in learning the truth about flying saucers can afford not to have this book on their shelf. Better, have it by your bed!"

Here it is at last; a book by a doctor who dares to tell the truth about medical trade unions, malpractice, kick-backs, fee-splitting, unnecessary surgery, ghost surgery, food poisons, poison sprays, drug monopoly, medical rackets and a host of other crimes against the traditions of the Hippocratic Oath.

These are the lifetime notes of a General Practitioner, now too old to practice, but determined to reveal the evils that medical monopoly bottled up for a half-century. Here is a fearless indictment, backed up by documentary proof, of the terrible menace to public health of power-mad and money-mad medical associations, to say nothing of the all-too-many doctors to whom their Hippocratic Oath is meaningless.

It is not an attack upon doctors in general, nor on the practice of medicine in toto; it is directed only against those knaves whose nefarious practices must be exposed to save the lives and health of thousands who will suffer or die needlessly because of greed, carelessness and ignorance. Many good doctors know the truth, but cannot speak, because to do so would mean personal financial disaster, and ousting from practice.

Dr. Chesney pulls no punches, and can prove every word he says. Don't let him stand alone in his courage. Don't remain a medical monopoly guinea pig. Order his sensational book today!

Dear Friend:

Although I'm using company stationery, I would like you to consider this a personal letter from me. I think that you've heard of me -- I publish "The Saucerian Bulletin," contribute to Ray Palmer's "Flying Saucers" Magazine, and wrote the book titled "They Knew Too Much About Flying Saucers," in which I exposed the forces which shut up flying saucer researchers and withhold the truth from the public.

Your name has been selected from among fifty, as one especially interested in what I am about to say. I WANT TO MAKE A SPECIAL OFFER TO YOU AS A "MEMBER" OF THIS SPECIAL LIST, so that I can obtain your opinion and I hope your recommendation.

You've heard of HOWARD MENGER, THE MAN WHO HAS MET SPACE PEOPLE face to face and has even ridden in their spacecraft. He has written down his experiences in the most exciting manuscript I have ever read. It is titled "FROM OUTER SPACE TO YOU."

But Howard Menger has been having the same difficulty getting his information before the public that many advocates of the New Age have experienced. One large firm wanted to publish this book, but they told Menger THEY WOULD HAVE TO SUBMIT THE MANUSCRIPT TO "CERTAIN SOURCES" FOR APPROVAL -- just what the "sources" were we don't know, but we can guess!

But Howard Menger turned thumbs down! "FROM OUTER SPACE TO YOU" must be published WITHOUT EVEN ONE PAGE DELETED! The same publisher also asked Menger to omit the actual photographs of space people and spacecraft, which Menger feels will PROVE his story is true.

Hearing of this censorship, I told Menger I would publish the book JUST AS IT WAS--and that I would publish the photographs too, despite the threats. To make a long story short, Menger agreed, we shook hands, and the manuscript went to the printer.

I believe this is a book everyone should read and own. Rather than spend large sums of money for advertising and publicity which would only cheapen this great book, I'm going to PASS THIS SAVING ALONG TO YOU. I know that one of the best forms of advertising is "word of mouth." I feel that after you read this book you're going to talk about it and recommend it to your friends.

That is why I am offering you this special PRE-PUBLICATION PRICE. After it is off the press "FROM OUTER SPACE TO YOU" will retail at $4.50. If you order NOW, you will be guaranteed one of the first edition copies FOR ONLY $3.50!

And here is more interesting news. Howard Menger has just authorized me by telephone to tell you this. The names of the first thousand persons who buy his book will be placed on a special scroll. This scroll WILL BE PRESENTED TO THE SPACE PEOPLE DURING ONE OF MENGER'S FORTHCOMING CONTACTS. Menger specifically asks that I tell you that he can't promise you will meet any of these people as a result, but at the same time he hinted that, quote, "The space people have some very interesting plans for a lot of wonderful people."

We have prepared an advertisement about "FROM OUTER SPACE TO YOU" and are printing it on the other side of this letterhead. I urge you to act NOW, however, for this special money-saving $3.50 offer will not be good after the book is off the press.

Very truly yours,

TRUMAN BETHURUM

ABOARD A

Flying Saucer

BY

TRUMAN BETHURUM

Here is a book of adventure so amazing that you can hardly help being incredulous.

Mr. Bethurum was born in Riverside County, California and attended various schools in the Southern California area. His education was interrupted at an early age to help in his father's blacksmith shop. From there his occupations were varied, having worked in cotton gins, on dredges, factory work, construction work, repair and maintenance of equipment, welder, and finally as batch plant operator and mechanic on a road construction job in the desert near Glendale, Nevada.

SPEAKS WITH PEOPLE FROM OUTER SPACE ELEVEN TIMES

Asleep in his truck one night, in the quiet of the Nevada desert, Truman Bethurum was awakened by the sound of people talking. Sitting up, he was startled to find his truck completely surrounded by little men conversing in an unknown tongue!

And, as he got out of the truck, there, but a short distance away, rested a huge, shining FLYING SAUCER!

Wonder, astonishment, bewildering amazement, consternation, even fear! All these mixed feelings were Truman Bethurum's as he stood transfixed and speechless with awe.

You'll thrill to these first-hand, physical experiences presented in the author's own natural, inimitable way of writing, giving information not heretofore known about the much talked of Flying Saucers.

The visitors from beyond the moon conversed in our own tongue, invited the author to meet their Captain, and tell of their interest in life on this planet as compared to Clarion.

A brilliant flash in the blue-black sky of the night becomes a blazing, colorful streak of light, only to rest, a few moments later, in the Nevada desert!

Read how this "Scow" from Clarion came and Mr. Bethurum visited with and went on board, on eleven different occasions. Learn how the Captain and crew were dressed, the philosophy and life of these people from outer space, and why they are visiting the earth.

ABOARD A FLYING SAUCER appeals both to scientist and layman. You'll find it educational as well as very good reading.
